WHY CHOOSE A COLLEGE OF MERIT?

The college of Merit differs from other traditional colleges in relation to the educational offer proposed to the students: they have to sign a so called Progetto Formativo/Educational Project as a complementary element of their university curriculum vitae. Their commitment is to participate to internal educational and cultural initiatives, such as courses, conferences, seminars, meetings, labs/workshops, debates, foreign language courses, art exhibitions and cultural visits.

Through the Educational project, which is a common and characterizing element of the Italian College of Merit network, individual programs focused on the acquisition of transversal skills, are shared and agreed with the Residence Board at the beginning of each academic year.

At the end of this path, a College Diploma is issued certifying that the agreed educational objectives have been reached.
